

PETKIDIS KONSTANTINOS

28th Sintagmatos 1, Ptolemaida 50200 | +30 6983155378
| konpetkidis@gmail.com

EDUCATION - LANGUAGES

High school graduate, 2010

Civil engineer graduate of TEITHE, 2016 - BSc in Civil Engineering

English degree of Michigan Proficiency C2, 2007

French degree DELF level B2, 2005

SKILLS & ABILITIES

AutoCad and Solidworks design programs

Level 2 certificate of examination on liquid penetrant inspection (LPI)

WORKING EXPERIENCE

2015-2016 Amynteon-Filotas district heating pipelines, Construction of new heating pump station / EKME S.A.

Trainee - Assistant site engineer, civil works and hydrotesting of the new piping networks

2016 Lignite mills, feeders and mechanical equipment maintenance works S.E.S. Amynteon / *SANIKO METAL LTD*

Site engineer, maintenance of mechanical equipment of S.E.S. Unit (Mills, Feeders)

2017 Tank restoration and maintenance works, HEL.PE. Tank Farm Megara / *SANIKO METAL LTD*

Site engineer, total replacement of tank floating roof, replacement of tank bottom plates

2017-2018	GCS00 – TAP Compressor Station Kipoi Evrou / EKME S.A. QA/QC engineer, preparation and execution of hydrotesting of new piping networks
2018-2019	Mechanical and Restoration works of Tank Δ-10, Cetracore-Jetoil / <i>SANIKO METAL LTD</i> Site engineer, total dismantling of tank compartments, dismantling and replacement of bottom plates and tank fireproof network
2019	Motor Oil Hellas Shut Down 2019 – FCC Unit / <i>SANIKO METAL LTD</i> Prefabrication engineer, prefabrication of Fuel Gas Line for FCC Unit MOH Refinery
2018-2019	Tank restoration and maintenance works, HEL.PE. Tank Farm Megara / <i>SANIKO METAL LTD</i> Site engineer, total replacement of tank floating roof, replacement of tank bottom plates
2020	Aspropirgos HEL.PE Refinery General Shut Down 2020 / <i>SANIKO METAL LTD</i> Site engineer, piping works supervision during general shutdown of Aspropirgos Helpe refinery Units 4600/2100/3100/3900
2020-2021	Piping works – erection of New Fuel Oil pipeline 20” and PIER 2 repair works at Elefsis HEL.PE. Refinery / <i>SANIKO METAL LTD</i> Site engineer, piping works for the repair of PIER 2 pipelines, replacement of ULSD pipelines of ULSD underground pipeway and erection of new Fuel Oil Pipeline 20”.
2021-2022	New Naphtha Complex Motoroil Hellas / <i>SANIKO METAL LTD</i> Site engineer / QA/QC engineer, piping works for the construction and erection of the new naphtha unit

2023 -
ongoing

Tank restoration and piping works in Elefsis and Aspropirgos Helpe refineries
/ *SANIKO METAL LTD*

Site engineer / QA/QC engineer, total dismantling and reconstruction of two tank floating roofs, replacement of bottom plates, replacement of the tanks fireproof network and underground oil network

Replacement of main tank supply 20" pipe

Replacement of tank shell plates and construction/erection of new wind girder
